Hi Judy – you can contact any of the Ornithology collection managers: myself, Kevin Epperly, or Rob Faucett. We'd love to have the specimens.

Chris

Contact for Submitting Window Collision Specimens

Message

I'm a Ph.D. student in the Built Environment studying bird building collisions on campus. I'm contacting you today to ask who is the best contact to set up donating salvaged birds to your collection? My monitoring project will officially begin in September 2022 but I am planning a pilot program this spring quarter.

Thank you,
