The email originating directly from the approving body will be considered a signature.

Updated: March 2020

Formal Letter of Support [Optional] / Additional Notes:

UW Grounds Maintenance Department continues to have a great partnership with the UW Chapter of the Society for Ecological Restoration. Areas of grounds have been stewarded by student -led volunteer events to remove invasive species and plant new bio-regional native plants in their place. Grounds can support these efforts with our campus native tree installations, however, more funding is needed to establish native understory shrubs and flowers to the growing list of these spaces on campus. Please help beautify our campus and help prepare it for the climate changes happening in the region by supporting this grant!
