Hi Judy,

Yes! So nice to finally meet in person. Really fun to walk around and look at buildings with you.

Ah, formal authorizations and detailed budgets...IMO those are hoops to jump through. I think you were right to celebrate 😊

Yes, we do have funds to support artists and materials for collision deterrents. I have at least \$5,000 to offer. It would be really fun to work together on something at UW.

Historically, 50% of fall migrants pass through Seattle between Sept. 19 and Oct. 11. An Oct. 3 start date would miss most of the peak, but that's not necessarily a problem. Happy to think through it more with you.

Josh
