- ○ Need a lot more information on the budget
  - ■ 60 hours for the computer science student?
  - ■ 8 people per cohort or in all?
- ● Garbage Truck Electrification
  - ○ Only the UW recycling project now
  - ○ Still figuring it out with STF
    - ■ This project is no longer contingent on STF funding; the purchase is definitely happening
  - ○ Would be a good way for us to get involved in an infrastructure without spending all of our money
  - ○ What is their plan to maintain contact with 7 RSOs as leadership turns over (considering the truck will not arrive until 2027)?
  - ○ Hesitant about funding an admin project with student funds.
  - ○ Will meet with STF after their presentation and keep everyone updated
- ● Ultra-Low Temperature Freezer Optimization Through Sensor Monitoring
  - ○ Able to shrink the budget significantly, but it would mean that student time would be cut
  - ○ Unpaid labor
    - ■ 6 months of unpaid shadowing
    - ■ Stipend break downs to $11 an hour
    - ■ Graduate and undergraduate stipends are paid the same
    - ■ May not get the expertise that they need, given the payment, impacting longevity
- ● UW Native Food Ecosystem
  - ○ If 15 hours really enough to be an advisory board?
  - ○ 75 for students doesn't really make sense, they could be paid as student researchers
  - ○ Need specific line items for materials
  - ○ Are they actively being paid (with CSF money)?
- ● Micronesian Islands Club
  - ○ HUB room rental fees suck. Not this RSOs fault, but so unfortunate
  - ○ Need line items for items
  - ○ What are their average ticket sales and yearly cost breakdowns?
  - ○ Uncomfortable with funding a photobooth in this economy (given CSF funds)

| 7:55-8:00 | **Final thoughts & adjourn**
