	<p>include POC but all under-represented communities</p> <p>FC2 Large grant</p> <p>FC2 LOI Voting Form</p>	
7:55-8:00	<p>Final thoughts & adjourn</p> <ul style="list-style-type: none"> - What sustainability means to us - What does sustainability mean to CSF? Much larger than just environmental and cultural, because we are all about pushing the boundaries of what sustainability, and culture does not just include POC but all under-represented communities - Like the open format, if we set it then other committees may have other opinions, should be able to be living, by each project it is often clear when its a stretch on a personal level, and each person has their respective definitions, will naturally shift as CSF grows, a structured definition - Would be difficult for project teams if we are changing our definition every year - Justice as a big part of sustainability <ul style="list-style-type: none"> - Aligns well w website ‘justice-centered sustainability movement’ - From ‘Sustainable Impact’ in project criteria/eval <ul style="list-style-type: none"> - ‘alternate/non-western approaches to sustainability, education, celebration of alternate ways of knowing, cultivating resilience, cultural preservation, pushing the boundaries of “sustainability”, challenging traditional narratives and status quo solutions, and promoting access for historically underrepresented groups.’ - This is what is on our website and what projects are seeing and applying to - 	Sofia/Clara
